

Dear Safety Wallet Team.

I would like to take a moment to congratulate you on an amazing product.

The OHS Online platform along with the PPP system and SafetyWallet dashboard, allows our users to keep tabs on their own safety system, planning and reporting.

Not only is this a perfect way of keeping the safety team and employees on the ball but also allows them to educate themselves and their teams.

Booking formal training, assigning online training, and creating documents like appointment letters, risk assessments, and formal registers, has never been so easy. With the click of a button the 16,2 can now appoint their safety team with ease.

OHS Online and the PPP system are truly game changers in the Health and Safety industry. I am currently looking after 12 branches that started off with one main branch and then expanded to 11 other branches.

From Setting up, running reports, doing a risk assessment, making appointments, booking online training, booking external training, and even more importantly giving users training has never been easier.

I would like to make mention of the exceptional service that the SafetyWallet team provides to us. I would especially like to thank Dyllan Steyn who helped me, trained me, and stood by my side every step of the way in our implementation journey and Jaydee Le Roux, who specially drove out to our site to personally meet me.

Without the SafetyWallet system and their amazing professional team, my work as a Safety Officer looking after 12 branches would have been a lot more difficult.

Thank you for your Service I am looking forward to working with you far into the future.

Kind Regards.

**Ettiene Mostert**
